

## Extreme Energy Solutions gets listed on THE OCMX™

---

*As a recognized industry leader, Extreme Energy Solutions is setting a new pace with innovations that move you; solving challenges with technology that meet environmental initiatives for commercial, industrial, government, and private clients-consumers alike.*

*Each technology and product line is designed with the purpose in reaching both economic and environmental sustainability for stakeholders across multiple platforms, providing a return on investment while lessening one's environmental impact.*

---

The OCMX™ is pleased to announce the listing of Extreme Energy Solutions to its online portal which offers Investors and Advisors the ability to participate in this opportunity.

The OCMX™ has spent considerable time completing its due diligence on Extreme Energy Solutions and concluded that there is indeed a tremendous opportunity for Investors and Advisors.

The OCMX™ noted that Extreme Energy Solutions exhibits the main components of any solid investment opportunity, namely a solid management team, a great track record, and a number of key competitive advantages.

### OPPORTUNITY HIGHLIGHTS

- 1 Extreme Energy Solutions is a standout in the industries it serves. Having already earned multiple industry awards and accolades, Extreme's innovation has already proven themselves in the lab and in real time.
- 2 Extreme's product lines are market ready, as proof of concept have already been developed including third party lab testing, long term durability and usage testing, and regional market segment launches.
- 3 Extreme offers established brands with brand recognition in selected market segments enhanced by strategic marketing partnerships within automotive racing, environmental justice, and non-profit community circles.
- 4 Extreme Energy Solutions innovative approach and technologies aim to assist audiences who face the challenges of leading mandates and global initiatives as the products are designed to interface with multiple user categories and applications.
- 5 Extreme innovations are very affordable and are some of the only technologies in its class to provide a return on investment as they impact efficiency and performance.

## MANAGEMENT TEAM

Extreme Energy Solutions is led by **Samuel K. Burlum**, a well-seasoned, well versed and creative individual who has brought the company from concept and start-up to market introduction and launch. Mr. Burlum serves not only in an executive capacity, but also is a technology innovator, marketer, master strategist, and recognized authority in his field.

**Mr. Kabeer Minhas** leads the company's efforts in the Middle East and in India, and has brought the company and potential clients to the final negotiating table with deals that have consummated and are pending which include partnerships with private, public, and trade entities. Mr. Minhas has an extensive track record of successes in procurement of deals within the Middle East-Asia Region, and leverages these successes to continue the vision and purpose of Extreme Energy Solutions.

**Mr. Jeffrey Smith** has served the Company in a wide number of capacities, including marketing, business development, vendor relations, public relations, project management, communications, and as a host to foreign delegation guests. Mr. Smith lends his talents and skill craft to manage multiple projects and duties simultaneously while keeping a well-informed public through multiple marketing and public relations platforms.

**Tommy Vigh Jr.** is a brand ambassador for Extreme Energy Solutions and serves as a notable figure in the racing community. Vigh represents the Company on and off the track, connecting the Company's brands and products with general consumers, business to business clients, and with other notable brands. Vigh is a well-known in the world of motorsports and has volunteered and continues to assist the company during its times of growth.

## ABOUT THE OCMX™

[The OCMX™](#) is literally changing how companies and investment funds generate exposure in the marketplace and raise funds as we know it. The OCMX™ serves both public and private companies along with investment and mutual funds which need to raise additional funds or gain significant market exposure. It does this by way of connecting the relevant companies, funds, investors, and advisors all in one online transparent portal. The OCMX™ (P2P Financial Inc.) launched in September of 2009 out of Toronto but has since expanded its operations to include Quebec, Alberta, Manitoba, and British Columbia.

The OCMX™ connects investors and advisors directly with companies and investment funds seeking to raise funds or gain broad market exposure. The OCMX™ provides an open venue for

innovative growth companies and leading investment funds to generate market

awareness, raise funds, or connect with investors and advisors. [The OCMX™](#) provides companies, funds, investors, and advisors instant access to its Online Portal so that they can actively source and connect with their next opportunity, advisor, investor, client, or financing partner.
